Description	

❖ APP INFORMATION

- Smooth recipe management for you, your children and your animals
- Get your prescription drugs delivered directly to your mailbox
- See when your prescriptions have arrived and how many withdrawals you have left
- See your high cost cover, your benefit level and manage your powers of attorney
- Buy over-the-counter medicines from our entire range
- Find the nearest Kronans Apotek

Description

Kronans Apotek's app makes it easy to manage your health directly from your mobile phone. The app allows you to conveniently shop for over-the-counter medicines and take advantage of unique offers. With features like medication reminders and access to personalized health advice, the app makes sure you never miss anything important. In addition, you can easily find the nearest pharmacy and see the stock status of your goods.

Download the app for a more comfortable everyday life and better control over your health.

Keep track of your prescriptions

With our app, you can see your own, your children's and your pet's recipes at any time. You also see the high-cost protection for yourself and the people you have power of attorney for.

Download in the app - deliver to your door

In the app, you can choose to either buy your prescription and have it delivered to your home, or pick it up at any pharmacy. We also offer home delivery of refrigerated goods via Gordon and the option of receiving narcotic drugs directly to your door. You can easily see which Kronans Apotek have your medicine available in stock.

Shop over-the-counter medicines and products from our entire range

Order over-the-counter medicines and products from our entire range directly through the app. Here you will find everything from allergy medicine and painkillers to skin care and nutritional supplements.

Reminders about your medicines

You can see notifications when a new prescription has come in or when a prescription is about to expire. Both for you, those you have powers of attorney for, your children and your animals.

Personal advice

We are happy to answer all your questions about medications. In the app, you can easily call customer service for advice.

Personal data

When you pick up a prescription from us, your personal data is processed securely with the support of the Pharmacy Data Act.

APPLICATION PERMISSIONS

PERMISSION	STATUS	INFO	DESCRIPTION	CODE MAPPINGS
android.permission.ACCESS_COARSE_LOCATION	[dangerous]	coarse (network-based) location	Access coarse location sources, such as the mobile network database, to determine an approximate phone location, where available. Malicious applications can use this to determine approximately where you are.	
android.permission.ACCESS_FINE_LOCATION	[dangerous]	fine (GPS) location	Access fine location sources, such as the Global Positioning System on the phone, where available. Malicious applications can use this to determine where you are and may consume additional battery power.	

PERMISSION	STATUS	INFO	DESCRIPTION	CODE MAPPINGS
android.permission.ACCESS_NETWORK_STATE	normal	view network status	Allows an application to view the status of all networks.	
android.permission.INTERNET	normal	full Internet access	Allows an application to create network sockets.	
android.permission.WAKE_LOCK	normal	prevent phone from sleeping	Allows an application to prevent the phone from going to sleep.	
com.google.android.c2dm.permission.RECEIVE	normal	recieve push notifications	Allows an application to receive push notifications from cloud.	
se.kronansapotek.kronan.permission.C2D_MESSAGE	unknown	Unknown permission	Unknown permission from android reference

WARNING 13

Search:

NO ◆	ISSUE	SEVERITY ◆	DESCRIPTION ◆	OPTIONS ◆
1	App can be installed on a vulnerable upatched Android version Android 5.0-5.0.2, [minSdk=21]	high	This application can be installed on an older version of android that has multiple unfixed vulnerabilities. These devices won't receive reasonable security updates from Google. Support an Android version => 10, API 29 to receive reasonable security updates.	
2	Application Data can be Backed up [android:allowBackup=true]	warning	This flag allows anyone to backup your application data via adb. It allows users who have enabled USB debugging to copy application data off of the device.	
3	Broadcast Receiver (se.kronansapotek.recept.android.util.NetworkStateReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.	
4	Broadcast Receiver (se.kronansapotek.recept.android.feature.todo.notification.NotificationReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.	
5	Broadcast Receiver (se.kronansapotek.ehm.kes.session.LogoutReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.	
6	Broadcast Receiver (se.kronansapotek.ehm.kes.session.PuffReceiver) is not Protected. [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.	

NO ▲	ISSUE	SEVERITY	DESCRIPTION	OPTIONS ◆
7	Service (se.kronahsapotek.recept.android.push.MyFirebaseInstanceIdService) is not Protected. [android:exported=true]	warning	A Service is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.	
8	Broadcast Receiver (com.microsoft.windowsazure.notifications.NotificationsBroadcastReceiver) is Protected by a permission, but the protection level of the permission should be checked. Permission: com.google.android.c2dm.permission.SEND [android:exported=true]	warning	A Broadcast Receiver is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device. It is protected by a permission which is not defined in the analysed application. As a result, the protection level of the permission should be checked where it is defined. If it is set to normal or dangerous, a malicious application can request and obtain the permission and interact with the component. If it is set to signature, only applications signed with the same certificate can obtain the permission.	
9	Activity (com.facebook.CustomTabActivity) is not Protected. [android:exported=true]	warning	An Activity is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.	
10	Service (com.google.firebaseio.messaging.FirebaseMessagingService) is not Protected. [android:exported=true]	warning	A Service is found to be shared with other apps on the device therefore leaving it accessible to any other application on the device.
